SUMMARY

M.Sc. in Economics with a strong focus on data analysis, statistics, and machine learning. Practical experience in processing and analyzing large datasets, statistical modeling, and developing automated data pipelines using Python, R, SQL, and Stata. Experienced in applied research at IAB and data analysis in the banking sector.

EXPERIENCE

Working Student | Statistical Methods & Labour Market Oct 2024 – Sep 2026
Institut für Arbeitsmarkt- und Berufsforschung (IAB) Nürnberg, Germany

- Prepared, validated, and analyzed linked survey and administrative data in Stata and R, covering 44,000+ respondents.
- Automated the extraction, cleaning, and merging of large-scale Destatis datasets, reducing manual effort in internal research processes.
- Produced tables and visualizations to communicate research findings.
- Calculated survey response rates and analyzed non-response patterns using survey data.
- Supported causal analysis of refugee mobility policies using methods including PSM, DiD, and regression kink designs.

Data Analytics Intern Jun 2021 – May 2022
Ziraat Bank Istanbul, Turkey

- Analyzed customer and portfolio data using SQL and Excel to identify trends in retail banking products and account activity.
- Wrote SQL queries to extract, filter, and aggregate customer and transaction-level data for exploratory analysis.
- Prepared Excel-based reports and summaries for branch management, highlighting portfolio and customer activity trends.
- Calculated and reconciled outstanding and overdue amounts across affected customer accounts, helping identify discrepancies and assess the size of problematic exposures.

EDUCATION

Master of Science in Economics Oct 2023 – Sep 2026
Friedrich-Alexander-Universität Erlangen-Nürnberg Nürnberg, Germany

- Master's Thesis at the Chair of Statistics and Econometrics: "Tracking Inflation in the G20 at High Frequency and in Real Time: A Machine Learning Approach."

Bachelor of Arts in Econometrics Oct 2017 – Jul 2022
Istanbul University Istanbul, Turkey

Erasmus+ Exchange in Economics Sep 2018 – Jul 2019
University of Łódź Łódź, Poland

TECHNICAL SKILLS

Programming: Python (pandas, NumPy, scikit-learn, TensorFlow/Keras), R, SQL, Stata
Tools: Git, Power BI, Tableau, Excel, AI/LLM Tools (Codex, Claude Code), LaTeX
Concepts: Deep Learning, Data Visualization, Data Modeling, Time Series Forecasting, Model Evaluation, Cloud Computing
Languages: Turkish (Native), English (C2), German (B2)

PROJECTS

Master's Thesis Oct 2025 – May 2026

Tracking Inflation in the G20 at High Frequency and in Real Time: A Machine Learning Approach

- Built an automated Python web-scraping pipeline to collect 20 years of weekly Google Trends data, covering more than 27,000 time series.
- Preprocessed noisy high-frequency data using seasonal adjustment, detrending, denoising, and variable-specific transformations.
- Implemented a mixed-frequency U-MIDAS framework and developed LSTM, XGBoost, autoregressive, and Random Walk models for inflation nowcasting.

IAB Technical Paper May 2025 – Nov 2025

Polnische Arbeitskräfte in Deutschland

- Co-authored the IAB publication on the labor market integration and employment situation of Polish workers in Germany.
- Analyzed survey data and produced tables and visualizations for the publication.

CERTIFICATES

IBM Databases and SQL for Data Science with Python (Sep 2026)
AWS Cloud Practitioner Essentials (Aug 2026)
Google Data Analytics Professional Certificate (Aug 2022)
